

AYMEN MOSRATI

FULL STACK SOFTWARE ENGINEER

Monastir, Tunisia | aymenmosrati6@gmail.com | [linkedin.com/in/aymenmosrati](https://www.linkedin.com/in/aymenmosrati) | github.com/aymenmosrati

SUMMARY

Full Stack Software Engineer with **4+ years** building web platforms end to end with React, Next.js, TypeScript, Node.js and Python, now focused on AI-powered products. Currently **Team Lead** on the Saudi Ministry of Municipalities and Housing's unified meetings platform; previously part of the engineering team behind **SANAD AI**, a **Silver Stevie® Award**-winning AI legal platform. At Softylines, delivered national-scale education and real-time products, including Tunisia's largest online learning platform.

EXPERIENCE

Loop Space | Sousse, Tunisia · Hybrid · Full-time

Team Lead – Unified Meetings Platform

Mar 2026 – Present

- Lead the team behind the Saudi Ministry of Municipalities and Housing's (MOMAH) unified platform for ministerial meetings, councils and committees, owning technical direction, delivery and code reviews.
- Meeting Scheduling:** deliver the full meeting lifecycle from request to schedule, with attendee and venue conflict detection.
- Councils & Committees:** build membership, roles and quorum management, with role-based access per council.
- Sticky Notes:** build task management workspaces to create, assign and track actions from meetings and agenda items.

Software Engineer – SANAD AI

Dec 2025 – May 2026

- Part of the engineering team behind SANAD AI, MOMAH's unified AI legal platform, used by thousands of users across hundreds of government entities — winner of the **Silver Stevie® Award (MENA 2026)** for AI innovation in government.
- AI Legal Analysis:** built features that analyze court rulings, extract key arguments and draft legal responses.
- Worked across React/Next.js frontends and Python/FastAPI services.

Massar | Remote · Part-time

Software Engineer

Aug 2025 – Present

- Build an AI-powered education platform that unifies school management, e-learning and communication.
- Develop end to end with React/Next.js, Node.js, Python and MongoDB, including role-based access and AI features.

Softylines | Sousse, Tunisia · Full-time

Software Developer

Oct 2022 – Oct 2025

- Built real-time, data-driven SaaS and e-learning products with React/Next.js and Node.js/Go for students, teachers and businesses.
- TakiAcademy:** part of the team building the student web experience of Tunisia's largest online learning platform.
- Popups:** built an embeddable SDK for in-app messages and product tours, with real-time targeting and a campaign builder.
- Messaggera:** part of the team building the React chat widget and dashboard of a real-time customer-messaging platform.
- WeQuizz:** built a quiz generator for teachers, with student analytics and team collaboration.
- Commento:** built an embeddable Q&A service that lets users ask questions and get answers inside the platform.
- Led code reviews and owned a shared component library used across products.

Full Stack Developer – Africa Management Services

Feb 2022 – May 2022

- Built a web application that automates ISO certification work: compliance documents and audit planning.

Full Stack Developer – BUS SOFTWARE

Aug 2021 – Sep 2021

- Built an HR management web application for employee records, attendance, leave and performance reviews.
